

GDDEKD9

Desiccant dehumidifiers are perfect for the New Zealand climate. They are more efficient and extract more humidity in temperatures 15 degrees and lower compared to the more common compressor dehumidifiers (which can struggle in colder temperatures).

- 9 litre extraction rate per day
- Modes: normal, silent, dry, continuous
- HEPA 13 filters to trap airborne allergens, bacteria and viruses
- 5 litre anti-bacterial tank
- 24 hour timer
- Quiet operation (sleep mode)
- Colour changing lights indicating room humidity levels
- Protects health and furniture from mould and mildew
- Clothes drying function
- Portable carry handle
- Tank full indicator
- Continuous drain option
- Decreases heating costs
- Washable filter
